

OUR PUBLICATIONS

OMNIPRESS is a dental publishing company established in 1981.

Its first edition was DENTAL JOURNAL magazine. In cooperation with the largest international dental publishing companies as well as Greek Dental Experts, OMNIPRESS has achieved to provide complete and multi-levelled dental information and knowledge.

Having 6.000 subscribers in Greece and Cyprus, OMNIPRESS is the first choice of the Greek dentists.

OMNIPRESS contributes significant to the evolution of the dental profession as well as to the upgrade of dentistry in Greece.

Briefly it publishes the following magazines for the Greek Dental Market:

DENTAL JOURNAL

A scientific dental magazine published monthly. For the first time it was edited in June 1981. It is send to 2.400 subscribers in Greece and Cyprus. With the cooperation of the most respected foreign dental magazines and with thorough selection for the published articles, which covers the increasing needs, and demands of the modern dentist, Dental Journal represents the most valuable solution to the problems that the Greek dentist faces.

DENTORAMA

A scientific dental magazine published in 1988 for the first time. It is send to 3.600 subscribers in Greece and Cyprus. Apart from the scientific dental articles, in its pages are presented the evolutions for dental equipment and materials in the daily practice. Additionally, it covers the most significant dental meetings in Greece and around the world as well as international meetings.
